## PROFESSIONAL SUMMARY

Aspiring Software and AI/ML Developer with a strong foundation in Python, C++, and full-stack development. Experienced in building scalable applications using Flask, Streamlit, and Android technologies. Skilled in machine learning, API integration, and backend system design. Passionate about leveraging AI, automation, and cloud-based solutions to solve real-world problems and actively seeking internship opportunities in software and AI domains.

## TECHNICAL SKILLS

- **Languages:** Python, C, C++, JavaScript
- **Full Stack:** MERN Stack (MongoDB, Express.js, React.js - Basics, Node.js), REST APIs, Flask, Streamlit
- **AI/ML:** NumPy, Pandas, Scikit-learn, Matplotlib, TensorFlow, Keras, OpenCV
- **AI Tools & Automation:** Hugging Face, Prompt Engineering, API Integration, Python Automation
- **Databases & Tools:** MySQL, MongoDB, SQLite, Git, GitHub, VS Code, Android Studio, Google Colab

## EXPERIENCE

**AI & IT Intern – AICTE Edunet Foundation** Sep 2025 – Oct 2025

- Developed StudyMate Pro, an AI-powered learning platform using Streamlit and Hugging Face APIs
- Implemented real-time explanation, summarization, and quiz generation features
- Improved system performance and usability through modular design and optimized API handling

**Machine Learning Intern – Cognifyz Technologies**

Aug 2025 – Sep 2025

- Built machine learning models using Scikit-learn for classification and prediction tasks
- Performed data preprocessing, feature engineering, and model evaluation on real-world datasets

## PROJECTS

**StudyMate Pro – AI Learning Assistant**

- Developed full-stack AI application using Streamlit and Hugging Face APIs
- Integrated chatbot, note summarization, and quiz generation features
- Enhanced user productivity through interactive learning features

**Medicare App (Android)**

- Built multi-screen Android application using Java and SQLite
- Implemented authentication, prescription generation, and profile management
- Designed structured local database for efficient data handling

**Image Compressor Web App**

- Developed Flask-based web application for image compression
- Supported multiple formats (PNG, JPG, WEBP, etc.)
- Designed responsive UI with real-time preview comparison

## CERTIFICATIONS

- MongoDB Associate Developer Certification
- Web Development – Internshala
- Computer Graphics – NPTEL

## ACHIEVEMENTS

- Guinness World Record – Microsoft AI Skills Fest (2025)
- EAMCET Rank: 7564

## EDUCATION

- **B.E. IT – CBIT Hyderabad** 2023–2027 CGPA: 9.04
- Intermediate – Sri Chaitanya CGPA: 9.74
- SSC – CGPA: 10.0
